Dr. Rajpal Singh Kashyap is presently, Director, Research and Sr Scientist in Central India Institute of Medical Sciences (CIIMS), Nagpur. He is Secretary of Dr G M Taori-Caring friends Tribal Health Research Centre at Melghat. His areas of research interest are immune and molecular diagnostics, proteomics, neurology, Neurosciences and infectious diseases, including Tuberculosis, Brain TB, Chikungunya, Neuroviruses, bacterial Meningitis, Neurozoonotic infections. He is currently working on various research projects which include prevalence of Zoonotic infections in central India, role of herbal drugs in infectious and noninfectious diseases, Strategy for BCG vaccination, diagnosis of active and latent TB. He has developed 18 ELISA and molecular based kits for diagnosis of neuroinfections. He received funding for his various projects from DBT, DST, ICMR and CSIR. Three Indian patents have been granted to him. He has 104 publications to his name in National as well as International journals including lancet infectious diseases. He is Ph.D Supervisor of Nagpur University in Biochemistry and microbiology. More than 100 students have done their dissertation under his guidance. 07 students have completed their Ph.D. under him. He is an Editorial Board Member and Reviewer of many peer reviewed Journals. He has received various prestigious awards such as Moulana Mohammed Ali Zohar Memorial Award, Sikh Education Society Appreciation award for excellence in Medical Sciences and various awards such as from the Department of Biotechnology, Japan Neuroscience Award, Global Health Award (Bill and Melinda Gates foundation) and Welcome trust award. He is a joint Seceratory of Society of Neurochemistry of India and a member of the following learned societies, Japan Neuroscience Society, International Brain Research Organization, Society of Biological Chemist (India), Indian Academy of Neurosciences (India), Association of Clinical Biochemistry of India. He is applied clinical research specialist.

Dr Rajpal Singh Kashyap at presently working with us in Central India Institute of Medical Sciences (CIIMS), Nagpur in the Research Department as a Director, Research. He is also working with us as a Research Consultant. He is Secretary of Dr G M Taori-Caring friends Tribal Health Research Centre at Melghat. He is working with us from last 20 years and has research experience of more

than 20 years. He is well known Biochemist and having expertise in all biochemical techniques, other than that he is very well versed with all Life Science and Advance Medical Science Technology including Molecular biology, Immunology, Animal tissue culture, Microbiology etc. His areas of research interest are immune and molecular diagnostics, proteomics, neurology, Neurosciences and infectious diseases, including Tuberculosis, Brain TB, Chikungunya, Neuroviruses, bacterial Meningitis, Neurozoonotic infections. He is currently working on various National and International research projects which include prevalence of Zoonotic infections in central India, role of herbal drugs in infectious and noninfectious diseases, Strategy for BCG vaccination, diagnosis of active and latent TB, C. diff infection etc.. He has developed 29 ELISA and molecular based kits for diagnosis for infectious and noninfectious diseases. He has received funding for his various projects from Indian government like DBT, DST, ICMR and CSIR and international funding and support from the University of Nottingham, University of Leeds, Colorado State University and University of Singapore. Three Indian patents have been granted to him. He has 104 publications to his name in National as well as International journals including Lancet Infectious Diseases. He is Ph.D Supervisor of Nagpur University in Biochemistry and Microbiology. More than 100 students have done their dissertation under his guidance. 07 students have completed their Ph.D. under him. He is an Editorial Board Member and Reviewer of many peer reviewed national and international Journals. He has received various prestigious national and international awards. He is a joint Secretary of Society of Neurochemistry of India and a member of the following learned societies, Japan Neuroscience Society, International Brain Research Organization, Society of Biological Chemist (India), Indian Academy of Neurosciences (India), Association of Clinical Biochemistry of India. He is applied clinical research specialist. In addition to that he is Chairman of CIIMS Research Committee, Members of CIIMS steering committee body, Institutional Ethical Committee and Animal ethics committee. He is competent in every area and gets along with everybody.
